

For Hire

Mobile Steam Boiler Plant Room

40 foot shipping container adapted for use as a mobile boiler plant room.

CONTAINS

- 2 x 1000kW gas fired steam boilers tethered together to provide a maximum of 2000kW of steam
- All ancillary equipment including
 - o Feed water tank
 - o Chemical dosing
 - o Water softener
 - o Blowdown tank

Only additional requirements are provision to services – water, gas, drain lines and power.

Ideal for a large scale, short term projects that require steam. Perfect if you do not want to be left with equipment at the end of the project.

AVAILABLE FOR IMMEDIATE HIRE.

Simons Boilers can deliver, install onsite and remove on completion of project.
