

ELECTRIC HOT WATER BOILERS

3.6kW - 480kW

Electric Hot Water boiler is a perfect solution when you require hot water for space heating but do not have access to gas on site. Speak to one of our consultants about your requirements.

FEATURES

- **Capacity** - extended to 480 kilowatts (48 hp.)
- **Electric elements** - side entry individually flanged and bolted to provide quick and simple replacement at minimum cost.
- **Fully packaged** - All integrally piped and wired, pretested ready for connection to services.
- **Restyled cabinets** - with panels to provide ready access to all working components.
- **Working pressures** to 725k Pa (105 P.S.I.G) higher pressures available.
- **Circulation Pump is not included**
- **Approved** in all states of Australia.
- **Flow/Return connection** - usually at the back of the boiler

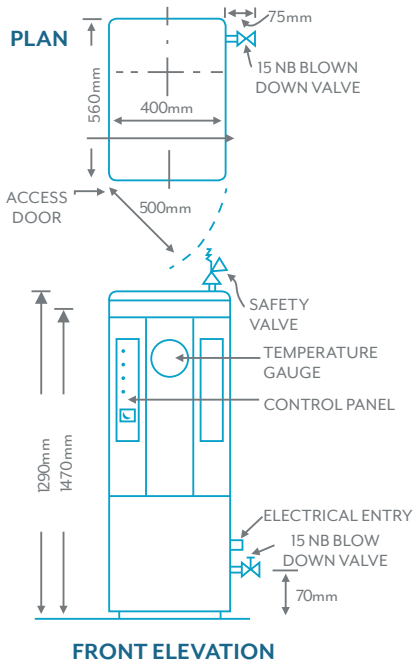

ADVANTAGES

- No Boiler attendant required
- Simple installation requires only connection of water and electricity
- No Flue – No Fire – No Risk of explosion – No fumes or smell
- Can be installed adjacent to steam appliance in workplace
- Negligible heat generated to surrounding area
- Simple to operate and maintain – no sophisticated burner / ignition / draft controls
- All spare parts available ex stock
- Fully qualified after sales service
- Comprehensive operating and maintenance instruction, wiring and piping diagrams accompany each boiler

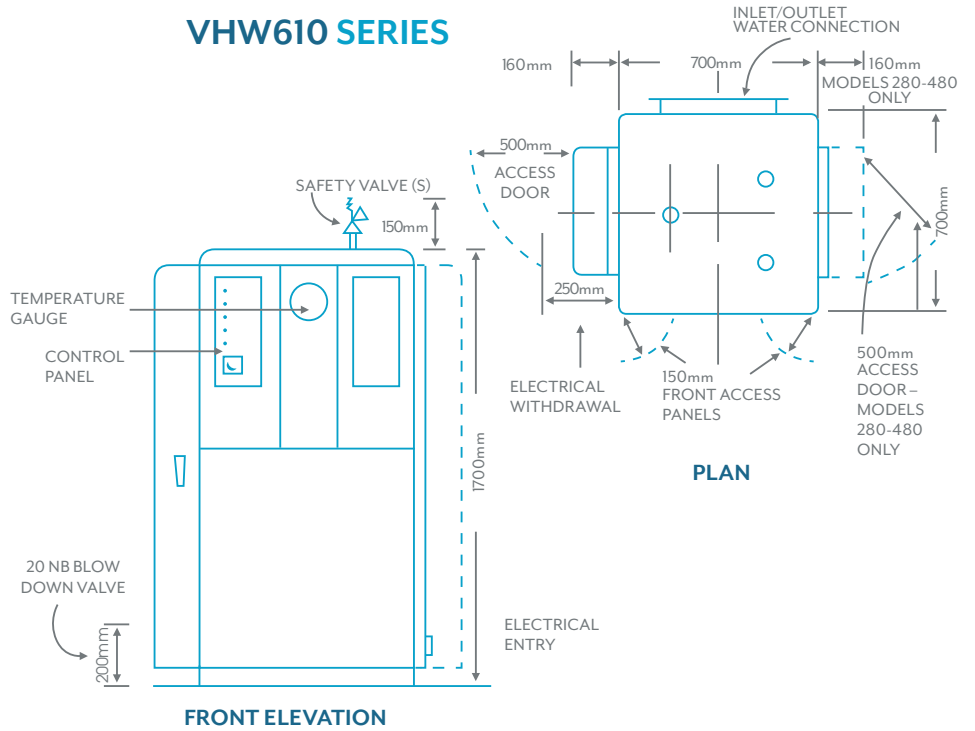

APPLICATIONS

- Industrial process heating
- University research, teaching and development applications
- Space Heating / Air conditioning
- Process heating
